Course Outline/Topics to be Covered

The ACT Program's 16-week course of study consists of classroom and practical hands-on experiences derived from the National Center for Construction Education and Research. The curriculum includes an introduction to the trade, math, communications and employability skills, safety, hand and power tools, basic blueprint reading, materials and fasteners, stair layout, windows, doors, roof framing, wall and ceiling framing, and floor systems. Students may also work on community service projects. They have access to assistance in literacy (math and reading), can pursue an external high school diploma, and can access case management and social services at Amos House as needed.

Required academic grade levels to enter program

Reading Grade Level 6th

Math Grade Level 5th

English Proficiency 5th grade
